

REGIONAL STANDARDS COMMITTEE MINUTES

DATE: September 22, 2005

LOCATION: County Operations Center, Building 2 Director's Conference Room

1. Sandy Brady called the meeting to order.
2. August Meeting Minutes: A motion was made to approve the meeting minutes as noted. Motion was approved.
3. Submittal Log Status: No new submittals.
4. Tim was not present to report. Sandy handed out current drawing status list to all members along with copies of the Approved Sewer and Water Drawings, now available on the RSD website. The Current Drawing status will be emailed out to all members again.
5. Earl and Dino were not present to report.

6. Report by Subcommittee Chairs:

Editorial: Dirk reported that the Editorial Committee discussed the proposed printing schedule for the next publication.

Traffic/Lighting/Electrical: No report.

Structures: Dirk Epperson reported that he is in the process of reviewing all other standards for retaining walls. City of San Diego is reviewing their retaining wall drawings to apply soil factors. Dirk is on the agenda for the Structural Engineering Association of San Diego (SEAS) October meeting.

Drainage/NPDES: Debbie was not present to report.

Roads/Streets: Dennis was not present to report.

Wet Utilities: Jim was not present to report.

Landscaping: Mark was not present to report..

7. New business items:

- a. Discussion on the depth of the A-4 cleanout – is 6' depth (maximum)? This drawings should be labeled as maximum, if appropriate.
- b. Dirk asked if there was any plan to create BMP drawings as standards?
- c. Existing Curb Ramps on recap roads – do you have to replace to meet the new standards? City of San Diego, if existing ramp meets grade requirement and has lip, they leave alone. No other comments from any other agencies.

8. Next RSC meeting is scheduled for October 27, 2005 at 1:30 pm.
